

This collection weaves together numerous writings derived from within and around experiences of incarceration. These writings show the dynamics and consequences of imprisonment, as well as the networks of solidarity, voluntary association and mutual aid that form in the struggle against it.

This collection emerged as part of our ongoing organizing efforts accompanying our imprisoned compañero Miguel Peralta in the struggle for his freedom. We wanted to give insight into Miguel's physical, emotional and political experience in prison through his own words; in the statements, poetry, denunciations and other texts which are included herein.

In this collection you will also find writings we have produced as a solidarity group in our experience accompanying Miguel, as well as writings from other prisoners and collectives engaged in the struggle against captivity.

With love and solidarity for our imprisoned compañerxs.

Rumblings from the Mountain: Prison, Solidarity and Struggle
